Photoshop + Camera + Drone || The Core School 2021 United States

Theory & training: cameras, drones, and Photoshop & Davinci Resolve Editing. Acquired skills in lens and objective management, capturing visuals, and advanced editing techniques. Proficient in photography and videography

SEO & Marketing Digital || Big Seo Academy 2017- 2018 Spain

I utilized my expertise in TSA, Sendinblue, Hubspot, and Google Analytics to manage successful digital marketing campaigns. I developed visually appealing websites using WordPress, optimizing them with SEO and web analytics. I created visually engaging content using Canva and effectively collaborated within teams using Slack.

About Me

I am a Technology passionate versatile and proactive person, having traveled for over 7 years across all continents undertaking different jobs and trainings. This experience has diversified my interpersonal skills and has led me to attain a high level of proficiency in English.

Work Experience

Freelance Developer FS 2022-2023 Spain

On the back-end, I work with Node.js, Express, and MongoDB, while the front-end is powered by React, SCSS, Tailwind CSS, and Ant Design. I recently developed and sold a dental software with scalable models for treatment, patients, appointments, and calendar. Deployed on AWS, Vercel, and Railway. The software's success is attributed to its comprehensive technology stack and user-friendly features.

Road Manager Mafalda 2021-2023. Spain

Managed and coordinated an international band in the local music scene, specializing in logistics, communication, social media marketing, and event organization.

Independent Profesional FS 2016-2021 U.S.A

Experienced in property management and administration, marketing, SEO, social media management, and economic management. Skilled in leading and managing teams of over 30 individuals.
